

SPLITTING AXE HANDLE

VI3312

The Splitting Axe Handle is designed to provide robustness and comfort for heavy cutting tools. With a length of 900 mm and a diameter of 47 mm, this handle offers a firm and balanced grip, making it easier to handle axes. Weighing 585 g, it provides ideal balance, making it effective for heavy-duty tasks. Ideal for tasks that require strength and precision, this handle is suitable for cutting operations in wood and other tough materials. Its sturdy construction and appropriate dimensions ensure reliable performance and long durability.
