

BRUSHLESS DRYWALL SCREWDRIVER 20V

VIBCAGCB20

The VITO 20V Brushless Drywall Screwdriver is a professional-grade tool designed to deliver precision, control and efficiency in plasterboard fastening tasks. Its brushless motor ensures longer lifespan, reduced wear and outstanding performance with minimal maintenance. Thanks to the EGO shared battery system, you can use the same battery across multiple VITO tools, providing more flexibility and cost savings on additional equipment. With depth adjustment and reversible rotation, it easily adapts to various applications, making both fastening and screw removal quick and effortless. The adjustable speed up to 4400 rpm offers precise control for clean and efficient work. Its 1/4" hex drive is compatible with standard screwdriving accessories. The compact design (230 x 90 x 220 mm) and lightweight build (0.99 kg) ensure comfortable use even during extended tasks. The low sound level (75 dB) enhances user comfort. Ideal for construction professionals, drywall installers, and interior finishers.

Key features

- > Brushless motor;
- > Adjustment of screwing depth;
- > Variable speed and reverse rotation;
- > ON/OFF switch lock-on button

Specifications

Bit holder	Hexagonal - 1/4"
Dimensions	230 x 90 x 220 mm
Motor type	Brushless
No-load Speed	0 - 4400 rpm
Product weight	0.99 Kg
Screw maximum diameter	6 mm
Sound power level (LWA)	86 dB
Sound pressure level (LPA)	75 dB
Voltage	20 V
